- ISUZU 3.0 Ddi VGS TURBO 163 hp at 3,200 rpm
Maximum torque of 380 Nm at 1,800 – 2,200 rpm
- 5-speed Automatic transmission with REV TRONIC feature for sporty emotion, fast, fun to drive and total confidence which will allow you to surge forward with power on your journey

BRAND NEW FUTURE

Introducing the new ISUZU MU-X which was developed to stand out and stand apart in every aspect. Designed with extra attitude, expressing a true interpretation of an SUV, combined with a luxurious versatile cabin and excellent all-terrain performance. The new ISUZU MU-X's distinctive new look includes 3D front grill design, a refined side step, and flash back sporty 18-inch alloy wheels. Everyday is extraordinary once you experience the new ISUZU MU-X.

CONVENIENCE

Step into the new ISUZU MU-X and discover a new level of comfort. The spacious cabin is a work of refinement which exudes attention to details like no other, as the cabin is crafted with carefully selected materials in sporty dark tone to please the eyes. Ergonomically- designed bolster seats can accommodate and pamper its occupants throughout the trip. Premium audio system with 8 speakers surround sound and built-in roof monitors ensures that everyone is entertained throughout the trip.

The new ISUZU MU-X is a truly modernized SUV that offers a premium passenger car experience.

Passive entry & start system allows you to lock and unlock the vehicle doors without touching the key, and to start or stop the engine simply by pushing the ignition button.

Climate control air conditioning lets you drive in comfort in a level of luxury expected from a class leading vehicles.

8" touch screen audio system with USB, AUX and Bluetooth connectivity.

Instrument panel with multi-information display.

VERSATILITY

The essence of the new ISUZU MU-X is defined by the "ISUZU UNIVERSAL DESIGN" concept which creates convenience for both the driver and occupants via a spacious interior that exceeds expectations.

The 60:40 second row and 50:50 third row adjustment capabilities allow passenger seats to fold down and create more cargo space for enhanced flexibility to suit a variety of lifestyles. Also featured are plenty of clever storage compartments for personal items.

So whether it's urban exploring or outdoor adventure, the new ISUZU MU-X is more than ready to meet every discerning requirement.

Second and third row seats fold flat to allow for maximum load space.

The 60:40 middle seat split design allows for a large load space and 3 occupants.

Third row seats fold flat to provide extra load space to accommodate 5 occupants.

1 seat folds flat to provide extra load space whilst accommodating 6 occupants.

SAFETY & DURABILITY

Wherever the road ahead takes you, the new ISUZU MU-X delivers safe journeys with its active safety and passive safety systems.

The Hill Start Assist (HSA) function engages automatically on gradients to prevent the ISUZU MU-X rolling when moving from a stationary position while the Hill Descent Control (HDC) allows a smooth hill descent at a controlled speed.

Anti-lock Brake System (ABS) with Electric Brake force Distribution (EBD) and Brake Assist (BA) features provide great stopping ability and control even on slippery road conditions. Electronic Stability Control (ESC) and Traction Control System (TCS) allow for maximum road grip during acceleration and high speed cornering. High Tensile Steel passenger safety cell, combined with dual front airbags and pretension safety belts assure confidence for occupants. Whiplash Protection Seat helps to reduce the whiplash injury during accidents.

Discover new life experiences with the new ISUZU MU-X.

Electronic Stability Control (ESC) detects if the vehicle is under or oversteering.

Cabin constructed from high tensile steel and tailor blank welding for an unyielding strength and rigidity of the passenger safety cell.

ISUZU ALL OVER THE WORLD

HISTORY OF ISUZU

ISUZU is a Japanese automobile manufacturer which has a rich history that dates back to 1916, making it a pioneering automobile brand with the oldest history and heritage second to none.

It was in 1916 that ISUZU rose to the elite rank of a world-class diesel vehicle innovator and specialist. Throughout the period of over 100 years, ISUZU has established itself as a pioneering force in the areas of design, performance and world-class diesel technology. To date, more than 25-million Diesel engines bearing the ISUZU brand has become a true testament to the brand's technological prowess and excellence in quality; adding to ISUZU's unblemished track record is the fact that it's Diesel engines has constantly been chosen as the power source of top automobile manufacturers all over the world due to its excellent performance and world renown fuel economy.

The ISUZU MU-X is an example of the brand's technological prowess that has elevated the ISUZU MU-X to the ranks of the premier SUV category. The ISUZU MU-X offers sophisticated design and powerful engine performance which is complemented by an exceptional driving experience. It comes to no surprise that the ISUZU MU-X has become the choice of families worldwide, and various companies as the mode of transport for their journeys and life destinations.
